We know you have a lot on
your mind right now, but
you're in good hands.

Welcome to our practice.

Our Commitment to You

We believe that clinical and warm are not mutually exclusive. We believe that cancer is personal—for our patients and ourselves. We believe that a life spent caring for others at their most vulnerable point is the only life worth living. We believe that love and leading-edge treatment change and save lives. We believe that without passion, life is nothing. Our passion is our patients.

You've come to the best place for world-class care.

Established in 1988, Hematology Oncology Associates of Fredericksburg has been providing quality medical oncology and hematology services to the community of the greater Fredericksburg area for nearly three decades. Our five highly qualified medical oncologists and advanced practice providers have delivered patient care in a state-of-the-art facility designed with our patients' comfort and care as our highest priority.

OUR CORE VALUES

- 1 SPEAK THE TRUTH
- 2 RESPECT YOURSELF AND OTHERS
- 3 WORK HARD
- 4 SUPPORT YOUR TEAM AND PATIENTS
- 5 BE KIND TO YOURSELF AND OTHERS

Our Services

MEDICAL ONCOLOGY

Medical oncology is the treatment of cancer with medicine such as chemotherapy, biotherapy, immunotherapy, and hormones. Our medical oncologists coordinate and direct your medical care in collaboration with your referring physician and other specialists.

HEMATOLOGY

We provide hematology services, including the treatment of coagulation and clotting disorders as well as diseases related to blood and bone marrow.

INFUSION

Our facility offers a range of innovative infusion therapies in a tranquil setting, including chemo-biotherapy, iron infusions, immunotherapy, antibiotics, and hydration therapy.

CHEMOTHERAPY

We offer multiple cancer treatment options, from traditional chemotherapy to advanced immune and biotherapies. We also work with multiple pharmaceutical companies and tertiary centers to provide our patients access to clinical trials through our facility.

CLINICAL TRIALS

We are committed to offering our patients the most advanced comprehensive cancer care. We currently have multiple trials open for enrollment—see our full list at hoafredericksburg.com

IRON REPLACEMENT

We offer intravenous iron replacement therapy for our cancer and blood disorder patients.

PRESCRIPTION SERVICES

For our patients' convenience, HOAF provides on-site prescription services for oral therapies, as well as any supportive medicines you may need during your care.

HOLISTIC CARE

At HOAF, we treat our patients' minds as well as their bodies through offerings such as weekly yoga classes and pet therapy. And our pharmacy carries holistic supportive medications including ginger and curcumin.

CO-PAY ASSISTANCE

We understand the financial burden of cancer care on our patients and their families. HOAF will work with you to coordinate copay assistance whenever possible.

TREATMENT SIDE EFFECT MANAGEMENT

During the course of your treatment, our clinical staff proactively manages any side effects or complications you may experience. We make every effort to treat you at our facility to help you avoid costly emergency room visits.

SURVEILLANCE CLINIC

The Surveillance Clinic, which opened at our Fredericksburg location in 2018, is an acute care clinic serving the urgent needs of all HOAF patients, including those at our Stafford location, experiencing problems or symptoms related to their cancer treatment or diagnosis. We see patients on a walk-in basis, no appointment necessary.

What to Bring to Treatment

We recommend bringing the following with you to your chemotherapy and infusion treatments:

Snacks or a meal

(We have a microwave for patient use)

Mobile device and headphones

(If you'd like to watch anything online)

Blankets

Any supportive medications you may need in addition to what we provide

A list of your current medications

Please limit yourself to one guest during your treatments to respect the privacy of our other patients.

Online Resources

You can access your medical records, lab results, and billing at any time through our website at hoafredericksburg.com. In addition, you'll find information on clinical trials, education resources, physician biographies, and answers to frequently asked questions.

Your Team for Care

Our medical oncologists and advanced practice providers work alongside an expert group of supportive clinical and administrative staff. A collaborative environment helps ensure that your needs are met throughout your cancer journey. Our billing staff understands the implications of cancer on your finances, our infusion nurses are experts in delivering cancer and blood disorder treatments, and our advanced practice providers and nationally known physicians understand how best to manage your symptoms.

Dr. Charles L. Maurer

“It’s critical to have patients and their families be an active part of the evaluation and treatment process. Communication is essential to successful care.”

Dr. Sudeep J. Menachery

“I am always amazed at the strength and courage that patients with cancer have in their everyday fight. They inspire me in my profession as we continue to search for cures.”

Dr. Christopher N. Vaughn

“Each one of my patients has a rich, full life outside of their disease. The secret for taking great care of a patient lies in caring for the person inside.”

Dr. Matthew T. Whitehurst

“I believe in personalized medicine. I will always ensure that each patient has the treatment that is most beneficial for them.”

Dr. Bonny L. Moore

“I treat each patient of mine as I would want my loved one to be treated. My goal is to help each patient make the decisions that are best for him or her and provide my patients with the best tools to do so.”

Dr. Lisa J. Simmons

“I have worked in oncology since I was a high school nursing assistant. I understand each of my patients has unique needs, and I work with a dedicated care team to ensure they can keep as much of their daily routines as possible while undergoing treatment.”

**Danielle E. Aldrich-Chellappoo,
MSN, NP-C, AOCNP**

“What really sets us apart is the genuine kindness and concern that we feel for our patients and their families. It’s science with a heart.”

**Linda L. Hazelgren,
ACNP-BC, CCRN**

“At HOAF, I truly feel that we focus on the whole person, rather than just the disease.”

Elizabeth Stanford, PA-C

“It takes a special kind of person to do this work. We meet people at one of the most difficult points of their lives, and we take our responsibility very seriously.”

Candice Sullivan, MSN, FNP-C

“I see the fear and confusion in people’s faces when they have been diagnosed. My role is to help deliver the very best personalized medicine while calming their very real fears.”

Leslie Cooper, FNP-C

“My goal is to provide patient-centered holistic care that encompasses the whole person and not just the cancer diagnosis.”

**Sheila A. Gent,
MSN, FNP-C**

“People will forget what you said, people will forget what you did, but people will never forget how you made them feel.”

Our Facilities

We serve the communities of Fredericksburg and Stafford, and our two buildings were designed with you in mind. We aimed to create beautiful, tranquil, comfortable settings for cancer and blood disorder and to provide the same experience and level of care at both locations.

With their great stone fireplaces and exposed wooden beams, our lobbies create the feeling of a mountain lodge.

PARKING

Parking is available in the front and side areas of our buildings. Ample parking is usually available, but a drop-off/pickup area is located in the front of the building as well. If you have any concerns before your first appointment, please call our front desk.

HANDICAP ACCESS

We have ample reserved handicap parking, and wheelchairs are available in our lobby. All areas of our practice are accessible by wheelchair.
